ST-2908L
Hybrid (Wired & Wireless) Engineering Alarm KIT

Features:

- Scalable to meet home, business or industrial needs
- 8 wired zones (expandable) + 32 wireless zones
- GSM+LAN+PSTN networks built-in modules
- Built-in 4*4 keypad and dot matrix LCD display
- Built-in Voice dialer, Built-in siren, Built-in receiver
- Support 4 wired keyboard
- Support all the wireless accessories of Stark System
- Android and iOS FREE smart APP
- 2 Key fobs, Network Cable, PSTN Cable & Power Cable included in the KIT

TECHNICAL SPECIFICATION

Power	AC power 220V±15%	Working Environment	-10°C~ +50°C
Frequency	433.92Mhz	Size	264x260x78 mm (L * W * T)
Humidity	40 ~ 70%	Battery	12V/7Ah
Assist Output Current	<350mA	Built-in Siren	>90dB
Siren Output Current	<350mA	Distance between wireless PIR detector and alarm panel	≥ 400m (in the open area)
Distance between door magnet and alarm panel	≥ 200m (in the open area)	Distance between wireless remote controller and alarm panel	≥ 100m (in the open area)
Distance between wireless siren and alarm panel	≥ 300m (in the open area)
