

WiReless AlARM sÈstem

elegant pro series

ST- 6107S

OUTDOOR SOLAR WIRELESS SIREN

This Siren uses solar panels to turn solar energy into electricity and power the entire system. Therefore, this device is energy-saving and environmental-friendly.

When the thief triggers the alarm system, you can immediately call the police. It has a real-time monitoring function; you can listen to what you want to hear. The built-in lithium battery can last for 8 hours even if the power is cut off.

TECHNICAL SPECIFICATION

Size Specification	320x213x94mm (L x W x H)	Wireless Working Frequency	433.92 MHZ
Battery	2600mAh 3.7V 18650 lithium battery	Wireless Emitting Distance	≤400M (in the open area)
Alarm Current	≤400mA	Wireless Receiving Distance	≤400M (in the open area)
Stand-by time	≤60 days (without sunlight)	Use Environment	Working temperature -20°C ~+55°C relative humidity 40~80%
Siren Alarm Sound	150dB
