

WiReLess ALARM sÈstem

elegant pro series

ST-320A

Wireless PIR Detector

Features:

Advanced digital signal processing technology with automatic temperature compensation, it emits wireless digit signal to activate alarm host effectively when detecting human infrared heat energy. low power consumption to working stable and low rate of false alarm.

TECHNICAL SPECIFICATION

Detecting way	Dual sensor with digital signal processing technology	Stand-by current	$\leq 30\mu\text{A}$
Detective distance	8m	Alarm Current	$\leq 13\text{mA}$
Detective angle	110°	Emission frequency	433.92MHz
Working temperature	10°C ~ +40°C	Installation Height	2-2.5m
Emission Distance	$\geq 450\text{m}$ (inner antenna $\geq 300\text{m}$) in open area	Working voltage	DC 6V (4pcs 1.5/AAA battery), or external power (adapter DV12V)
Dimension	(L*W*H): (100.56*5.44*5) mm
