

WIRELESS ALARM SYSTEM

elegant pro series

STARKTM
TECHNOLOGIES

Your Security is Our Passion

ELEGANT PRO SERIES

WIFI/3G/GPRS/SMS NETWORK ALARM PANEL

W7 smart wireless alarm system adopts the up-to-date digital sensor and transfer technology, which integrates burglar, and fire/gas protection for smart alarm system.

WIRELESS PIR DETECTOR

Micro-power design, battery Low power alert, anti-electromagnetism interference, temperature compensation.

SECURITY ACTIVE MINI RFID TAG

The memory chip on the RFID tag contains a unique identification code, which can be sent securely when placed near proximity of the RFID reader of the panel.

WIRELESS REMOTE CONTROL

The remote control has four buttons, which have arm, disarm, home arm and SOS.

MAGNETIC DOOR SENSOR

Micro power consumption, high stability, long distance. The door sensor can be installed on door, window which makes it ideal for use in banks, villas, home residences, factory buildings, markets, stores.

WIRELESS OUTDOOR SIREN

SMART , Elegant appearance, Multi LED colors indicator ,High alarm sound and also used as a repeater

WIRELESS SMOKE -HEAT DETECTOR

A photoelectric smoke and heat detector with a unique structure design

WIRELESS INDOOR IP CAMERA

This is our latest network camera with built-in passive infrared sensor, High resolution , clear image and video

WIRELESS KEYPAD

Support multiple users, chargeable built-in high capacity lithium battery , and up to 8 RFID cards

ST-6107W

WIRELESS OUTDOOR WATERPROOF SIREN

TECHNICAL SPECIFICATIONS

Power	DC 15V	Battery	12V/1.2Ah
Standby current	<50mA	Siren Volume	>120dB(within 1m)
Emission frequency	433.92MHz	Working temperature	-10°C+55°C
Relative humidity	40% - 80%	Size	250x155x67mm (L x W x H)
Alarm current	<500mA/15V	Zone Number	2 wired + 32 wireless zones

KEY FEATURES

Multiple siren groups working simultaneously

- Built-in wireless repeater to enroll the detectors to the siren, Effectively increase the wireless transmission distance up to 300m in open areas
- Indicator light and voice when arming and disarming the alarm system
- Optional wireless and wired working mode
- Elegant design and appearance
- Powerfull alarm sound and flashing LED lights
- The possibility to enroll up to 32 wireless detector and 8 remote controllers
- Built-in 1.2Ah, 12V lead-acid battery, provides 24 hours backup time
- Built-in 2 NC wired zones, zone 1 is 24 hours zone, zone 2 is burglar zone
- Two type of linkage method to the alarm system, via app or keypad
