

ST-423C

Wired Ceiling PIR Motion Detector 360°

Features:

- The Whole process temperature compensation, adaptive temperature changes.
- Anti-white light interference.
- Anti-electromagnetic interference.
- Low power detection, Low power report.
- Two-stage infrared gain adjustable.
- Easy to install, beautiful and generous.

TECHNICAL SPECIFICATION

Power	DC 3V (CR17450*1)	Working Temperature	-10°C ~ 50°C
Standby current	≤ 30uA	Size	98×81×26mm
Battery life	4-5 years	Wireless distance	300m
Wireless Frequency	433.92 MHz	Installation height	3-5 m
Transmitting Current	20 mA	Detection Angle	360°
