

ST-301A

Wired Octuple Relay Module

Features:

ST-301A provides 16 relay output interface, each relay interface can be set to follow events output, following zone output.

- Supply Octuple NC、NO Relay output, can be used for linkage extensions, such as connecting the video matrix, realize video alarm linkage.
- ST-2908L two octuple relay modules can be connected maximum.
- Each relay can be set followed event output or followed zone output.

TECHNICAL SPECIFICATION

Power	DC 10.5 V ~ 15 V	Working Temperature	-10°C ~ 50°C
Standby current	≤ 30mA	Size	98×81×26mm
