

# ST-001

## Wired Vibration Sensor

### Features:

- Intelligent signal analysis technology.
- Sensitivity can be adjustable.
- LED ON/OFF can be adjusted.
- Alarming delay optional.
- Radio frequency interference (20V/m-1GHz).
- SMT manufacture technology, RFI and EMI interference.

### TECHNICAL SPECIFICATION

<b>Power</b>	DC 12V	<b>Working Temperature</b>	-20°C ~ 60°C
<b>Standby current</b>	≤ 15mA	<b>Size</b>	61×37×21mm
<b>Alarming current</b>	≤ 25mA	<b>Alarm output</b>	Relay output (normally closed/open optional)
<b>Alarming indication</b>	Red LED	<b>Delay alarm</b>	3 seconds or 3 minutes (optional)
