

WIRELESS ALARM SYSTEM

elegant pro series

ST-323W

Wireless Ceiling PIR Detector

Features:

- The whole process temperature compensation, adaptive temperature changes
- Easy to install, beautiful and generous
- Anti-white light interference
- Anti-electromagnetic interference
- Low power alert, and send low power report to alarm host
- With SMT technology, high stability
- Two-stage infrared gain adjustable

TECHNICAL SPECIFICATION

Power	DC 3V(Battery) (CR17450*1)	Working Environment	-10°C~ +50°C
Frequency	433.92Mhz	Battery Life	4~5 Years (100 alarm triggers/day)
Humidity	<80%	Housing Materials	ABS Flame-resistant Material
Standby Current	<30uA	Detection Angle	360°
Wireless Distance	(Inner Antenna): > 300m
