

WIRELESS ALARM SYSTEM

elegant pro series

ST-208T

Wireless Outdoor Solar Pet Immunity PIR

Features:

- Dual pyro sensors
- VLSI based electronics with movement speed spectrum analysis.
- 8 bands of sensitivities for option.
- Anti-direct or reflective sunshine.
- Pet immunity ≥ 25 KGs.
- Digital environmental temperature detection.
- Intelligent solar charging technology.
- Purely wireless transmitting structure, easy installation.
- Tamper & low voltage alarm.
- IP65 waterproof, high-strength optical system.
- Lens for option: long range, curtain, pet immunity.
- Frequency: 433Mhz.

TECHNICAL SPECIFICATION

| | | | |
|------------------------|------------------------------------|----------------------------|--------------|
| Power | DC 3.7V lithium chargeable Battery | Working Environment | -10°C~ +55°C |
| Frequency | 3.15/433Mhz | Alarm Current | 20mA |
| Humidity | 95% | Warm Period | 40s |
| Standby Current | 70uA | Alarm Time | 2s |
